UNI-SPOTTER

CURE-TEK

The UNI-9850 Complete Dent Repair Station has been designed to allow the shop to have one repair station to work on all dent repairs on all vehicles.

Steel panels or aluminum panels, the UNI-9800 Combo Stud Welder will weld both. This is the only welder on the market which gives this versatility.

Why buy 2 welders when 1 will do the job.

The Kit comes complete with:

Uni-9800 Combination

Aluminum/Steel Welder

4mm Aluminum welding studs

6mm Aluminum welding studs

4mm & 6mm pulling adapters
