

QUALITY BODYFILLERS AND MASKING PAPERS FROM

IMP.2102 GET-A-GRIP

This product is clog-free, lightweight and formulated for superior adhesion to galvanized steel, bare steel and aluminum.

IMP.2103 RITE-LITE

This high-quality, clog-free, lightweight body filler features smooth spreading and easy sanding.

IMP.2201 QUICK-GLAZE

Extra-thin formula spreads smoothly.

Easily fills grind marks, pin-holes and uneven surfaces; sand easily.

Helps prevent staining or bleeding through when used under base coat/clearcoat paint systems

IMP.5406 BLUE POLY

Poly coat will withstand all paints to prevent bleed through.

With the poly coat on the outside of the paper, there is no chance of lint or fuzz to come off the paper onto the paint.

Available in 6", 12", 18" and 36" widths

IMP.5305 WHITE URETHANE

This is a chemically treated paper designed for urethane-based paint systems.

Lightweight basis weight makes this paper ideal for tight cornering and other intricate masking procedures.

Available in 12", 18" and 36" widths.

IMP.5303 GREEN

35# Machine finished green masking paper. Designed to have better hold-out than other heavier green masking papers.

Available in 6", 12", 18", 24" and 36" widths
